

**Committee on Campus Life and Student Issues
of the College Council**

Meeting #2

November 6, 2013

S724

Minutes

Present: Eugenio Barrios, Michael George, Michael Hutmaker, Andrew Levy, Harry Mars,
Ivelisse Rodriguez, Rofiquel Rubel

Absent: Winston Aitken, Hicee Globio

1. Joint meeting with the Committee on Technology
 - Distribution of information regarding computer lab locations, hours of operation and rules for usage.
 - WiFi coverage in the college overall is very good. Students prefer to complete assignments on workstations instead of using tablets and mobile devices.
 - Computers in the lounge areas at Fiterman Hall need to be better maintained.
 - Explore “print only” pilot to alleviate backlog of students waiting in line at a lab to use a printer. Will request a report from the LRC on their “print only” pilot project.
 - Use of paperless assignments was discussed with faculty.
 - Update end of semester lab survey to include question(s) about printing.
 - Mobile devices are rarely used during class.
 - Journalism classes use printouts.
 - In order to determine the correct number of computer labs needed for a semester the departments need to include/update lab requests in proposed department schedules. Submission deadlines must be met. Faculty have indicated that there is a shortage of instructional computer labs.

2. Meeting adjourned.
